

Charts for recording observations of Planetary Motion

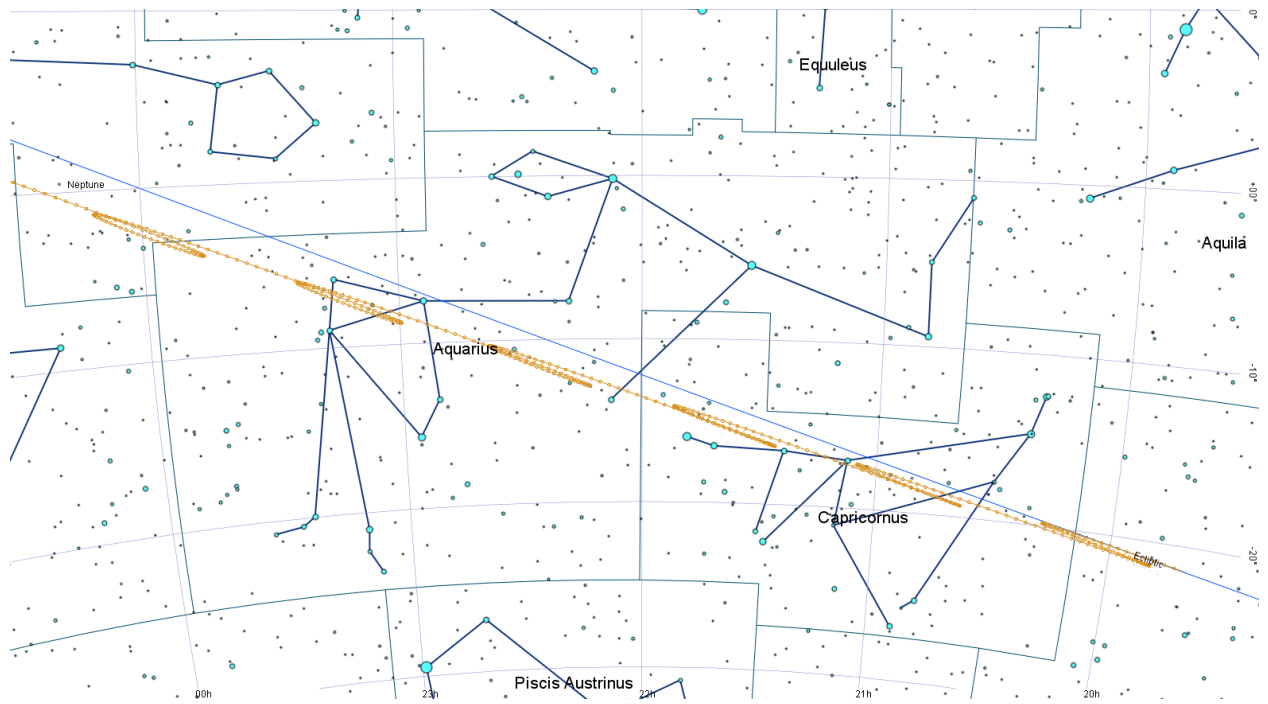

You can cut out each diagram and paste in your notebook. The paths shown are *predicted* for the planets. Observe the planet for yourself and mark its location on the given chart as it appears to you. It should be located on or near the predicted path. Be sure to record the date and time for each observation.

Mars 2022

Jupiter 2020 - 2023

Saturn 2020 - 2026
